SUMMARY

Motivated Full Stack and Software Developer with a strong foundation in **Java, Python, JavaScript** , and **PHP** . Passionate about building scalable web applications and delivering seamless user experiences. Experienced in both front-end and back-end development using modern frameworks like **React.js**, **Node.js**, and **MongoDB**. Eager to contribute to innovative projects and continuously grow in software engineering and full stack development.

EXPERIENCE

Full Stack Developer Intern

Cybexonics IT Consultants

📅 12/2024 - 03/2025 📍 Baramati, Pune.

- Engineered and optimized dynamic user interfaces using React.js ensuring a seamless and engaging user experience.
- Developed and deployed RESTful APIs with Node.js and Express.js facilitating efficient communication between front-end and back-end systems.
- Designed and structured database models in MongoDB improving data organization and retrieval efficiency.
- Integrated authentication and authorization mechanisms, enhancing security for user accounts and API endpoints.
- Collaborated with cross-functional teams to refine UI/UX elements and implement responsive design principles
- Debugged and optimized code for performance improvements, reducing load times and enhancing system stability.

EDUCATION

Master of Computer Application (MCA)

Vidya Pratishthan's Institute of Information Technology

📅 08/2023 - 06/2025 📍 Baramati, Pune.

Bachelor of Computer Applications (BCA)

Vidya Pratishthan's Arts, Science & Commerce College

📅 07/2020 - 03/2023 📍 Baramati,Pune.

PROJECTS

Online Clothes Center

📅 07/2024 - 03/2024

🔗 https://github.com/AniketWable57/Online-Clothes-Center

Developed a user-friendly e-commerce platform using Java and JSP that enables buyers to browse, purchase products online, and sellers to manage inventory efficiently. Collaborated in a team to implement secure transactions and streamlined order management, enhancing the overall shopping experience.

AI-POWERED SKILL-SWAP APPLICATION

📅 01/2025 - 03/2025

🔗 https://github.com/AniketWable57/AIPOWEREDSKILLSWAPAPPLICATION

Contributed to the development of a web and mobile platform using Node.js, MongoDB, and Flutter (Dart) to enable AI-based skill matching and real-time video learning sessions. Worked as part of a team to implement features like user profiles, community forums, ratings, and admin management, fostering interactive and scalable skill exchange.

SKILLS

Java Python ReactJS NodeJS

DevOps HTML CSS JSP C

C++ PHP Git Postman

MongoDB Firebase ExpressJS

CERTIFICATION

Data Structures - Simplilearn

Covered core Java data structures like arrays, linked lists, stacks, and queues for optimized programming.

Selenium Basics

Learned fundamentals of Selenium for automating web application testing processes.

MongoDB Tutorial

Gained knowledge of NoSQL database operations, including CRUD and schema design in MongoDB.

INTERESTS

New Technology

Passionate about exploring emerging technologies like AI, IoT, and automation to build impactful, real-world solutions.

Coding Challenges

Enjoy solving complex problems through coding and participating in hackathons.

Problem Solving & Algorithms

Enjoy tackling complex challenges through efficient algorithms and optimized coding practices.

EXTRA-CURRICULAR ACTIVITIES

Corporate Training at Viovosa

Professional Development Program on Corporate Readiness

Completed a structured training program focused on enhancing employability skills, including corporate communication, teamwork, leadership, time management, and professional etiquette. Engaged in mock interviews, group discussions, and real-world problem-solving scenarios to prepare for the dynamic demands of modern IT workplaces.
